

TRADITIONAL TODAY PRE-KIT TOMORROW

ADJUSTABLE SHELVING

Interior adjustable shelving configurations available to accommodate traditional snack boxes or pre-kit totes. Provides perfect flexibility for transitioning to micro-market or pre-kitting.

ROLL-UP SIDE DOORS

Side roll-up doors have been a Hackney mainstay for decades. Large, swing-out doors used by competitors increase the likelihood of failures and requires extra space around the vehicle to open.

REAR WALK-IN ACCESS

Rear walk-in access with lower step height and non-slip safety grill insert.

RE-MOUNTABLE

Hackney bodies are routinely re-mounted and re-conditioned when the life of your first chassis is complete. Durability means lower maintenance and extended service life.

ERGONOMIC DESIGN

SmartPak's drop step design allows for exterior, low retrieval height providing quick access, while reducing the risk of injury when unloading product.

SECURITY

Hackney's exclusive lock design has been a staple in the beverage industry for decades and keeps your inventory safe and secure.

COOLER OPTIONS

SmartPak offers flow-thru, walk-in, and stand alone cooler designs to accommodate the growing number of juice, chocolate and frozen product.

LOWEST COST OF OWNERSHIP

The all-aluminum SmartPak provides weight savings, increased payload, and fuel efficiency, on top of features such as durability, re-mountability, and adjustable shelving.
